

NS1000 Headphones

The NS1000 removes intrusive background noise on aircraft, trains and other similar environments.

NS1000 Headphones Features

- ANR (Active Noise Reduction) technology
- Ultra-comfortable ear cushions ideal for extended listening
- Protective durable travel case
- Advanced neodymium magnet drivers deliver exceptional hi-fidelity performance
- Closed back design reduces sound leakage
- Detachable, single sided 1.8m cable, designed by Britain's leading hi fi cable manufacturer, QED
- Pack includes aeroplane adaptor and battery
- Gold plated 3.5mm stereo jack, with 6.3mm adaptor

NS1000 Headphones Specifications

Active Noise Reduction ON:

Frequency response	15Hz - 23kHz
Total Harmonic Distortion	<0.3% (1mW @ 1kHz)
Sound Pressure Level	101dB (1mW @ 1kHz)
Max input power	260 mW
Impedance	300 Ohms

Active Noise Reduction OFF:

Frequency Response	15Hz - 20kHz
Total Harmonic Distortion	<0.1% (1mW @ 1kHz)
Sound Pressure Level	93 (1mW @ 1kHz)
Max input power	300 mW
